## Anesthesia - Resuscitation

The resuscitation department of the **Mohammed VI International University Hospital** is operational 24 hours a day, 7 days a week. It welcomes patients with acute failure of vital functions: the respiratory system (lungs), the circulatory system (heart and vessels), the renal function, the nervous system, and other functions.

Our hospital is equipped with an anesthesia facility that guarantees maximum safety for our patients in the operating theatre, in close collaboration with the surgeons and other departments outside the operating theatre:

- Pre-anesthetic consultations
- Anesthesia in the operating theatre, in delivery rooms and in technical facilities
- Endoscopy, interventional radiology and Medically Assisted Reproduction (MAR)
- Perioperative care
- 24/7 Surgical and obstetrical emergencies.

The anesthetists provide daily pre-anesthetic consultation and cover all the acts in these different departments on a continuous basis. An on-call service is provided at night, on weekends and public holidays to ensure continuity of care.

## Emergencies

The emergency department of the **Mohammed VI International University Hospital** is operational and has access to the medical and technical facilities 24/7.

It receives and takes care of polytrauma patients and critically ill patients as well as injured people transported by ambulance to the Hospital or coming by their own means.

The emergency department provides immediate care for medical and surgical, neurosurgical and pediatric emergencies.

It has 3 trauma resuscitation rooms for patients requiring heavy care and ensures the presence of specialists on call 24 hours a day.

## Hospitalization services

Our medical, nursing, technical and administrative teams ensure that our patients' stay in the hospital runs smoothly. We make sure that the stay in the hospital is pleasant and provide them with rooms that offer all the necessary amenities for their comfort: comfortable beds, quality furniture, private bathroom, air conditioning, smart TV, and free Wi-Fi connection.

## International Patients

To promote access to medical excellence and facilitate the care of international patients, the **Mohammed VI International University Hospital** has an International Unit, with a dedicated team that accompanies the patient from the first contact until discharge.

This unit assists in:

- Estimation of costs for the care of international patients
- Management of all administrative and financial aspects of their stay in our hospital
- Personal support (interpreter, tourist information, reservations, etc...).
